- Provided friendly service in high-pressure environment

EVENT STAFF **Feb 2020 - July 2023**

R&S Catering

- Assisted with table setup and food arrangement
- Provided courteous service to guests

PROJECT EXPERIENCE

VW MK1 Parts Finder

- **Technologies Used:** HTML5, CSS3, JavaScript, JSON

Project Overview

- Tech Stack: HTML5, CSS3 (Flexbox/Grid), JavaScript , REST APIs / JSON
- Built a mobile-friendly frontend app that lets users search and filter through a catalogue of VW MK1 parts in real-time.
- Connected the frontend to a mock JSON dataset using the JavaScript Fetch API to load and update parts dynamically without refreshing the page.
- Wrote clean, modern CSS with Flexbox and Grid to make sure the interface scales properly from small phone screens to desktop monitors.
- Created custom interactive features using vanilla JavaScript, including a live search bar and a working mock-up shopping cart
